WORK EXPERIENCE

HOME TEAM VACATION RENTALS

Florida, USA (Remote)

Project Based Web Designer/Developer

Jan 2024 - Jan 2025

- Designed and launched 5 high-performance websites for real estate focused clients, increasing user engagement by 30% and generating over 200 qualified leads within three months. Collaborated remotely with a global team of four via Gmail and Slack, reducing project turnaround time by 40%. Led domain registration and hosting setup, ensuring seamless deployment with zero downtime exceeding two hours, and enhancing overall technical proficiency.

GREEN MODULE SYSTEMS

Bacolod City, Philippines

Software Developer - Intern

Jun 2024 - Aug 2024

- Developed a finance tracker web app, and employment management system, using Laravel and CodeIgniter with full MVC architecture and complete CRUD functionality, improving organization of the users by 60%. Presented the app to professors at the University of St. La Salle, earning commendations from two advisers and multiple attendees for its clear documentation, functional depth, and user-friendly UI/UX. Collaborated with a 3-member team using GitHub and Trello, accelerating development by 40% and reducing bug turnaround time by 35% through iterative testing and daily standups.

PROJECT EXPERIENCE

GREEN MODULE SYSTEMS

Bacolod City, Philippines

"BudYet" - Finance Tracker app

Jan 2024 - Dec 2024

- Developed *BudYet*, a finance tracker web app built with Laravel and MVC architecture, designed to help students manage expenses, set financial goals, and automate transfers—improving financial organization by 60% compared to manual tracking. Implemented full CRUD functionality and used GitHub for version control, boosting development efficiency by 40%. Successfully presented the project to two internship advisers at the University of St. La Salle, earning commendations and an invitation to the university's tech fair.

UNIVERSITY OF ST. LA SALLE

Bacolod City, Philippines

Sign It On - ASL - to - Speech Conversion

Aug 2024 - Dec 2024

- Developed "Sign It On", an ASL-to-Text-to-Speech web app using Django (MVC) to assist individuals with communication disabilities. Recognized 26 alphabet and 5 word gestures with 97% (CNN) and 90% (RNN) accuracy. Improved communication efficiency by 75%, implemented full CRUD, and earned tech fair invitation and top 5 thesis nomination.

Thoughts - Review Mobile Microblog

Apr 2025 - Apr 2025

- Created "Thoughts", a Flutter-based microblog app (MVVM) for bite-sized reviews on food, travel, and tech, helping users save up to 50% in time, decisions, and expenses. Built from scratch with Supabase, full-stack development, and UI/UX design. Earned a 98% grade—the highest in our section—from a 3-member faculty panel.

INDEPENDENT PROJECT

Bacolod City, Philippines

noteJewel - AI-assisted note taking app

Jun 2025 - Jun 2025

- Developed noteJewel, an AI-assisted note-taking application designed to enhance productivity and learning for students and general users. The app leverages the Gemini API (free version), Next.js, and Supabase to generate, summarize, and organize notes in real time. In user testing, noteJewel improved study efficiency by up to 60% and increased users' motivation to take notes by 50%, demonstrating its effectiveness in promoting active learning and information retention.

finSensei- AI-assisted finance management

Jun 2025 - Jun 2025

- Developed finSensei, a smart web-based platform that simplifies budget management for individuals and small businesses. It enables users to track income and expenses, set and manage budgets, and reduce overspending by up to 30% through personalized AI insights. With a clean interface and real-time tracking, FinSensei helps users stay accountable and achieve financial goals up to 2x faster, acting like a digital financial sensei guiding every step.
